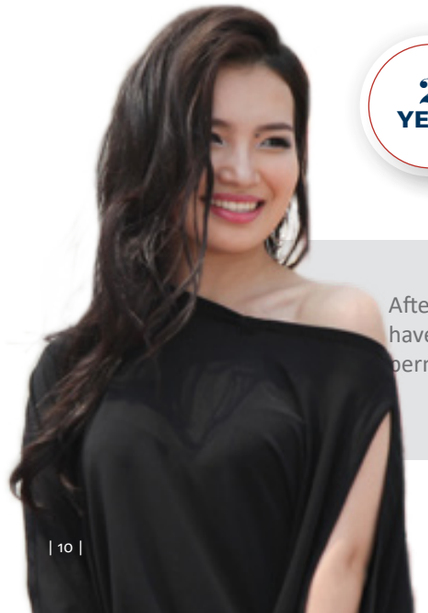
ASSOCIATE OF ARTS DEGREE

The Associate of Arts Degree is a two-year undergraduate degree. The Associate Degree program is designed to provide broad-based knowledge in the faculties of arts, humanities, and social sciences. Students will be challenged to develop their critical thinking and research skills, preparing them to enter the workforce, or as a foundation for further undergraduate study.

The Associate of Arts Degree requires students to complete a minimum of 60 credits of University Transferable courses, including 6 credits of English, 9 credits of Science, and 36 credits in Arts with 18 credits from second-year courses. This breadth of study allows graduates the opportunity to transfer into the 3rd year of a bachelor degree at leading Canadian and American universities.

Benefits of an Associate Degree

- Associate of Arts Degree students are eligible to work off-campus on a part-time basis for up to 20 hours per week.
- Upon completion of the degree, full–time students are eligible to apply for a Post Graduate Work Permit (PGWP).
- After completing the first year of full-time work, graduates are eligible to apply for permanent residency.
- Some universities give priority admission to Associate Degree holders.
- British Columbia public research universities guarantee the full 60 credits to students admitted on the strength of an Associate Degree.



After graduating from the Associate of Arts Degree program, I have started my career in a bank. Now I am on the path to getting permanent residency in Canada.

2 ADULT GRADUATION PROGRAM

- Thousands of Coquitlam College students have entered top universities using our First Track Program
- This program allows adult students a more concentrated course of studies, allowing high school completion in as little as one or two semesters
- Upon completion of this program, students receive a High School Graduation Diploma which is accepted for first year university studies at all public and private colleges in British Columbia
- Upon completion of first year at Coquitlam College, students may enter second year at top universities in Canada and the United States

Students who are 18 years of age or older may complete their high school requirements in the BC Adult Graduation Program. Students must complete five High School courses. Of the five courses:

- 2 of the 5 can be transferred
- 3 of the 5 must be at the Grade 12 level
- Provincial exams are optional

3 ADVANCED PROGRAM

This program is for highly motivated and capable students under the age of 19 who want to begin their university studies as soon as possible.

Students in the Advanced Program must successfully complete four high school courses including English 12 and write the corresponding provincial exam. They may then begin university courses at the College after meeting the requirements.

Upon completion of at least 30 university course credits at Coquitlam College, students are eligible to enter a university at the second-year level.

ADMISSION REQUIREMENTS

Admissions are based on an evaluation of a student's transcripts from his/her previous school as well as English language fluency.

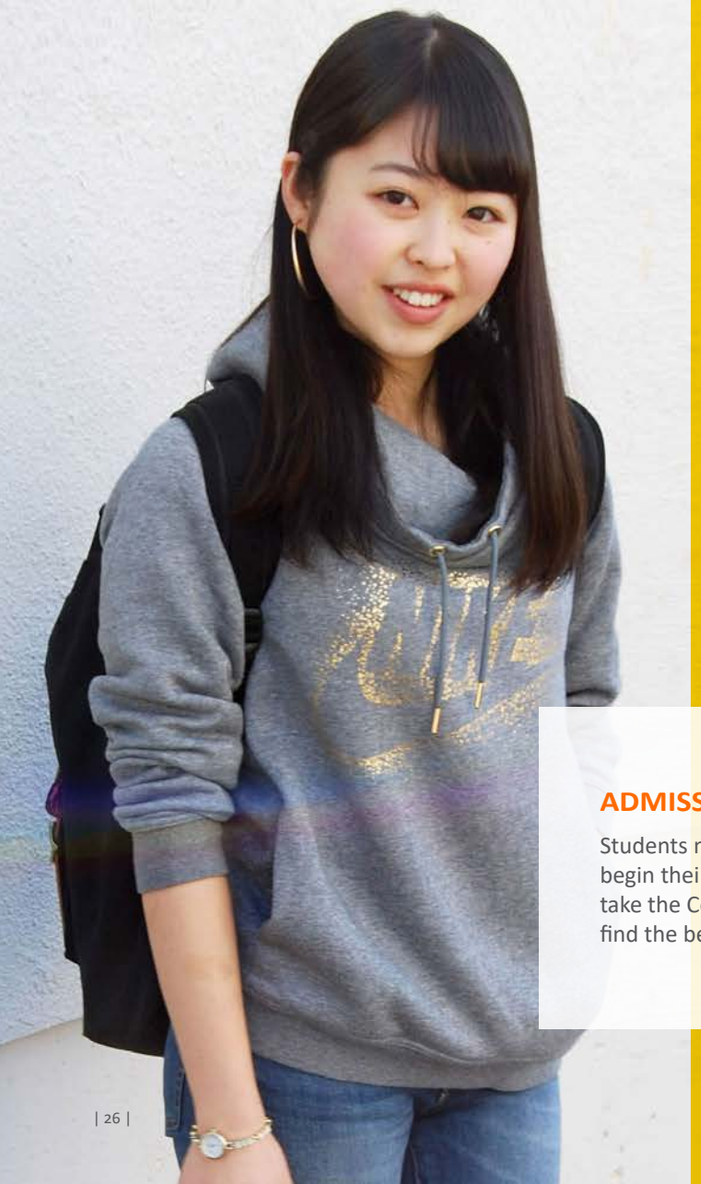
HIGH SCHOOL PROGRAM

Grade 10, 11, 12

Coquitlam College understands that our students come from a wide variety of educational backgrounds. For this reason, we offer three distinct high school programs to help you complete the courses you need to start your university studies in Canada without delay.

Coquitlam College's High School Programs are certified by the Independent Schools Branch of the Ministry of Education (MOE) of the Province of British Columbia.

ENGLISH STUDIES PROGRAM



Coquitlam College knows that strong English language skill is the key to reaching your academic and career goals in Canada and the United States. We offer a wide variety of English courses and immersion experiences for students of any level.

ENGLISH CERTIFICATE PROGRAM

The English Studies programs at Coquitlam College are for students who are looking to develop their language skills as they prepare for high school and/or university studies. The English Certificate Program is for all students who need to improve their English language skills.

Courses offered range in levels from beginner to university preparation. Students are required to take writing and reading in each level.

At the Intermediate and Advanced levels, students have four electives from which they can choose two. These electives integrate all four skills (writing, reading, listening, and speaking) and focus on specific topics to allow students to use the skills they are learning.

ADMISSION REQUIREMENTS

Students must be at least 15 years of age when they begin their studies. In some cases, you will need to take the Coquitlam College English Diagnostic Test to find the best courses for your level.

Beginner

At the beginner level, students will be exposed to the fundamentals of English that will create the framework for future learning.

Intermediate

Intermediate students will build upon the framework they created in the beginner level to further develop the skills necessary for success in and outside of the English classroom. Reading comprehension and grammer will also be stressed. At the intermediate level, students may choose from the following electives:

- Canadian Culture
- Everyday English
- Media/News Studies
- Personal Awareness

Advanced

At the advanced level, students are prepared for the transition to secondary level courses in an English language environment. Emphasis is placed upon clear and fluent communication and on writing essays at the secondary level. Advanced students may choose from the following electives:

- College Communication
- Media Production
- Social Topics
- World Culture
- University Preparation

University Preparation

The university preparation courses focus on the skills that students will require for academic success within the post-secondary atmosphere.

BEGINNER	INTERMEDIATE	ADVANCED	UNIVERSITY PREPARATION
Writing	Writing	Writing	Writing
Reading	Reading	Reading	Reading
Conversation	Elective	Elective	
Grammar	Elective	Elective
