COURSE	DESCRIPTION					
This course is designed to give prospective business students and others an overview of the key functions within a business. While not meant to be substitute to actual business experience, it will give students without work experience some idea of how business operate and for those students with some work experience, it will augment what they really know.						
LEARNING OUTCOMES						
Upon successful completion of the course, students will be able to:						
<ul> <li>Familiarize students with concepts and trends related to business and management and their role in a broader economic, social, and environmental context.</li> <li>Students will be encouraged to gain solid knowledge and understanding of the different business functions and will be invited to critically analyze contemporary challenges facing businesses in the context of a global economy.</li> </ul>
