

# HOMESTAY STUDENT GUIDE

---

**Living with a host family provides an enriching cultural exchange and the perfect opportunity to learn the English Language. It is also the ideal setting to gain new skills and to experience the Canadian lifestyle.**

Please read the following information to help you get ready for this unique and wonderful experience.

- When you arrive, you will meet your family, this is a good time to go over any questions you may have. For example; How do I arrange my banking, WI-FI passwords, meal times, laundry arrangements, etc.
- You will be given entry/access into the home (housekey, and alarm code – if applicable).
- Your homestay family will help you get to the school the first day. If you do not live within walking distance to Coquitlam College, the homestay family will show you where to buy your bus pass and how to take public transit.
- Communication is most often the key to avoiding and resolving problems. It is important to talk to your homestay family and the homestay coordinator at the College. We are all here to help you adjust and enjoy your experience in Canada.

## **GETTING SETTLED**

- Once you are settled, you may want to be included in household duties and activities. For example: setting the table, emptying the dishwasher, taking the dog for a walk, or help make dinner. Feel free to offer your assistance.
- Tell your homestay family about your family by sharing photos or stories. If you like to cook, ask the host family if they would like you to help make dinner.
- Your host family is not a hotel. Please try to participate with the family chores, such as helping with dinner or doing your own laundry.
- Please comply with the family's rules. It is important to communicate with your

family when you are going out and to give them a telephone number where they can reach you. It can be very worrying for a host family if they cannot reach you, they need to know you are safe. Communicating with them is the key for a successful homestay experience.
