COURSE DESCRIPTION

This course deals with the history of South Asia from the beginning of the Moghul Empire to modern days. The course intends to emphasize the development of South Asian culture and political economy considering the regions imperial and colonial history. In this course, we will explore some of the key characters in the Moghul empire and their connections with other countries. In addition, we will also study the influence of the East India Company in India's politics and British rule in India, including colonialism, resistance, and the post-colonial policies.

LEARNING OUTCOMES

Upon successful completion of the course, you will be able to:

- recognize the major events in the history of early South Asia to present
- explain the significance of the major events that occurred in the history of early South Asia to the present
- discuss the political and economic development of India as a nation relating the past to the present
- evaluate the role of major themes like imperialism, colonialism, and decolonization in South Asia
- assess the major historical themes through argumentative essays on various topics in South Asia
- establish a unique thesis related to course content in a final student project
- use primary and secondary sources to support students' unique thesis
